NetworkTP are pleased to report that we now offer a data recovery service.

Accidentally deleted holiday photo's from your SD Card. We can get them back for you using specialised data recovery software.*

We can recover data from hard drives, usb memory sticks, SD Cards cards used in mobile phones and blackberries. If you need us to recover from anything else please contact us to find out if we can help you.

We charge a £10 handing fee per media item (£20 for Hard Drives) if we can't recover any of your data you will pay no more than the handling fee.

We can recover from the following : SD Recovery Flash Recovery xD Recovery M2 Recovery
Memory Stick Recovery MMC Recovery Hard Drive Recovery CD / DVD Recovery

* Recovery is not always possible and we make no garentees that we can get the data back
Charges:

There is a flat fee of £10 per media item. (£20 for Hard Drives)prices after that depend on how long it takes to recover the data and any additional material costs. We will discuss this with you before carrying out the work. Example:

John Smith accidentally wiped is holiday pictures from his memory card, We recovered all the data from the card and returned by post.

Invoice

Handling Fee £10

1 Hour of Engineer time @ £20 per Hour £20

Post and Packing £5

Total: £35

£35 is a very small price to pay for your pictures back, one of the major companies charges between £79 - £145 for accidental deletion recovery. We specialise in File system corruption and user deleted data and our fees for this service are very competitive, for cases where the drive is physically damaged the costs can be a lot higher due to the complex nature of the job, please ask us for a quote. Remember if we can't do it we will only charge the handling fee.

Recovered data will be posted back to you by recorded delivery along with the original media.
